Area Winner Circle – Program

What is the Area Winner Circle Program (AWC)?

Players accumulate points through the season when they participate and perform well in Area Play Days. Play Days are grouped by Area. Points may be earned at any play day. Year-end awards are made within each of seven areas (listed below).

Areas: Bay, Fresno, Monterey/S.Bay, North Central, Redwood, Sacramento, Stockton

How are Points Awarded?

Points are accumulated at Play Days throughout the year.

The player that shoots the lowest gross score receives 10 points, the person with the next lowest gross score receives 9 points, the next 8 and so on down to one point.

The same occurs for low net scores. Points of 10, 9, 8, etc. are awarded to the person with the lowest net, second lowest net, etc. If two or more women tie, all ties receive the same number of points. One person can place (and get points) in both the low gross and low net categories.

At the end of the year the three players with the highest number of points will receive AWC medals for their 1st, 2nd, and 3rd place showing in both Low Gross and Low Net Divisions.

In the case of the AWC medals, a woman can win in either the Low Gross or the Low Net category but not both. Player will win the highest award she is eligible for.

Example: Player is 2nd Low Net and 3rd Low Gross, she would be awarded the 2nd place in Low Net

TIES: If there are ties for the final awards, the following method for breaking ties shall be used:

For 1st Low Gross or Low Net – Sudden Death Playoff

2nd and 3rd place ties are broken by a card off

For both Gross and Net formats ties shall be broken by: Back 9, back 6, back 3,
